Professional Summary

Early-career professional with 3 years of experience across operations, product, and analytics, building KPI systems, optimising business processes, and managing cross-functional teams from scratch. Have worked as an operations lead, product builder, and instructor across a VC-backed startup, a wholesale business, and a global KPO. Comfortable with Excel, Power BI, and turning messy operational problems into measurable outcomes.

Professional Experience

Genpact

Noida, India

Associate - AML Operations

May 2025 - November 2025

- Leveraged Excel macro-driven dashboards to monitor TAT, quality scores, and case throughput across 500+ daily records, maintaining 100% SLA compliance with zero escalations.
- Coordinated across QA, compliance, and operations sub-teams tracking case progress — produced risk-tiered weekly status reports translating raw operational data into management decisions.

Gyasi Ram and Sons

Delhi, India

Assistant Store Manager

July 2024 - April 2025

- Reduced average customer interaction time from 20 to 12–13 minutes while increasing basket size from 2–3 to 4–5 products per visit by introducing structured product education methods across a 50-SKU nets and netting catalogue.
- Conducted a time-and-motion study to identify production bottlenecks for the first time, analysed throughput data across variants and seasonal cycles to build a forecasting model that eliminated fulfilment delays during demand spikes.
- Managed end-to-end store and warehouse operations across a 15-person team, coordinating stock verification, supplier replenishment across 6 vendors, and packing compliance.

Growth Central VC

Delhi, India

Core Team Member – Strategy & Analytics

August 2021 - July 2023

- Owned all non-sales operations as one of three Core Team Members – built 5 cross-functional teams (HR, Tech, Design, Research, SME/Content), scaled the organisation from 20 to 200+ people, and designed the systems that held it together.
- Conceptualised and launched a specialised skill training product line, generating ₹3,00,000 in Q1 revenue. Designed and personally delivered a 9-week Product Management & Operations course with a live management simulation across 4 cohorts of 20 people.
- Identified operational inefficiencies across 5 functional teams through 3 iterative rounds of KPI redesign over 23 months, moving from quantity-focused to a balanced gamified model that drove a 60% productivity increase and 40% absenteeism reduction by tracking and acting on weekly performance trends.

Education

Shiv Nadar University

Greater Noida, India

B.Tech in Electronics and Communication

August 2020 - May 2024

- Minor in Management Studies – Operations Research, Strategy & Management Consulting, Service Science & Digital Service Management, Organisational Change.
- Maruti Suzuki XCElerate 2023 Strategy Semi-Finalist (Top 1.5% nationally) – designed a market-entry strategy for EVs in India, analysing infrastructure constraints and supply chain readiness.
- Co-Founded Daikoku (EdTech/talent marketplace), incubated at SNU's Atal Incubation Centre; owned product scope, cross-functional delivery timelines, and go-to-market strategy across a 4-person founding team from ideation through working prototype.
